GM (Game Master) to Player 1 (Helper)

YOUR ROLE: HELPER

Role Description

You are a ****HELPER**** in a collaborative word-guessing activity.

Your objective is to guide the 'Seeker' (another participant who does **not** know the Target Word) to guess the secret 'Target Word'.

The secret 'Target Word' for this round is:
water

Your Task & Rules

When it is your turn:

1. ****Receive Information:**** You will be given the 'Current Sentence Fragment'. This fragment has been built by you and other Helpers in previous turns (or is the initial @[STARTING_WORD]@ on the first Helper's turn).
2. ****Your Action - Add Words:****
* You must add ****1 to 3 words**** to the END of the 'Current Sentence Fragment'.
3. ****Constraints on Your Addition:****

* **Do NOT** reveal the 'Target Word' water or its direct synonyms. This is a critical rule.

* Your added words must make the sentence remain **coherent** and **grammatically correct**.

* Your additions should **cleverly guide** the Seeker to guess the word water as efficiently as possible.

* You are under time pressure therefore keep your responses crisp and adhere to the rules of the game

Output Format Instructions
Respond with **ONLY** the 1 to 3 words you are adding.

YOUR ROLE: SEEKER

Role Description

You are a **SEEKER** in a collaborative word-guessing activity.

Your mission is to identify a secret 'Target Word' known only to other

participants ('Helpers').

Helpers will build a sentence, clue by clue, and present it to you to guide your guess.

Your Task & Rules

1. **Guessing the Target Word:**

* On each of your turns, you will be presented with the 'Current Sentence Fragment'. This fragment is collaboratively built by the Helpers.

* Based *only* on this 'Current Sentence Fragment', you must guess the 'Target Word'.

* Your guess must be the exact 'Target Word'. Synonyms are incorrect.

* If your guess is wrong, Helpers will add more words to the sentence for your next attempt.

2. **Objective Completion:**

* The activity ends when you correctly guess the exact 'Target Word'.

Output Format Instructions

When it is your turn to guess:
Respond with **ONLY** your single guessed word.

You are under time pressure so answer as quickly as possible.
